Designs of the Coats of Arms and other boxcar plaques was researched by a group of very dedicated individuals who became involved in the project through mercitrain.org and worked to make the reproductions as close as possible in color and design to the original plaques of the 1949 Merci Boxcars. Other reproductions are vastly different and historically incorrect. Compare the Eagle and Train plaques below to others you may find. These plaques were unique designs by R. Louis for the French Gratitude Train. Additional information can be found on our website at <https://www.texasboxcar.org/boxcar-provincial-shields.html>
